

The Cabinet of Ministers of the Republic of Azerbaijan

Decree № 34

On Approval of «List of engineering-prospecting works as per buildings and structures with I and II level of responsibility according to the state standards», «List of works on building and structures design with I and II level of responsibility according to the state standards» and «List of civil and erection works as per buildings and structures with I and II level of responsibility according to the state standards»

Baku, February 27, 2009

In order to ensure the fulfillment of 2.3 sub-paragraph of the Decree of the President of the Azerbaijan Republic of November 13, 2007 № 650 «On making changes and amendments to the Decree of the President of the Republic of Azerbaijan «On Improvement of Regulations of Granting Special Permissions (Licenses) for Some Types of Activities» of 2 September 2002 number 782» the Cabinet of Ministers of the Azerbaijan Republic decrees:

1. To approve the «List of engineering-prospecting works as per buildings and structures with I and II level of responsibility according to the state standards», «List of works on building and structures design with I and II level of responsibility according to the state standards» and «List of civil and erection works as per buildings and structures with I and II level of responsibility according to the state standards» (Supplements № 1-3).
2. This Decree shall enter into force upon the day of signature.

The Prime Minister of the Azerbaijan Republic

A. RASI-ZADEH

*Supplement № 1
Approved by the Decree
of the Cabinet of Ministers
of the Azerbaijan Republic*

of February 27, 2009
№ 34

List
of engineering-prospecting works as per buildings and
structures with I and II level of responsibility according to
the state standards

№	Name of works and services
1.	Engineering and surveying works
2.	Engineering-geological surveys
3.	Engineering and hydro-geological surveys
4.	Geophysical Surveys
5.	Laboratory examination of soil

Supplement № 2
Approved by the Decree
of the Cabinet of Ministers
of the Azerbaijan Republic
of February 27, 2009
№ 34

List
of works on building and structures design with I and II
level of responsibility according to the state standards

№	Name of works and services
1	2
1.	Planning documentation development:
1.1.	Designing of schemes of regional planning and master plans of cities
1.2.	Building and planning design of residential areas and major trunk roads and streets
1.3.	Designing of vertical grading and land improvement
2.	Architectural designing of the objects
2.1.	Architectural design of buildings and structures
2.2.	Restoration of architectural monuments
3.	Building structure design
4.	Transport facilities design
4.1.	Railways
4.2.	Highways
4.3.	Airfield runways
4.4.	Bridges and overpasses
4.5.	Design of railway tunnels, stations and tunnels of underground

4.6.	Trunk pipelines
4.7.	Reservoirs
5.	Design of hydraulic and drainage facilities
6.	Design of engineering systems, networks and structures:
6.1.	Electric power plants
6.2.	Lines and electric power transmission devices of high voltage
6.3.	Power supply systems
6.4.	Heating systems
6.5.	Water and sewage systems
6.6.	Gas supply system
6.7.	Networks and communication systems, radio and television
6.8.	HVAC system
6.9.	Cold supply systems
6.10.	Instrumentation and automation control devices
6.11.	Fire alarm and automatic fire extinguishing systems
7.	Development of special units of the projects:
7.1.	Planning of anti-corrosion measures
7.2.	Planning of construction organization
7.3.	Cost estimating
8.	Survey of technical condition of buildings and structures:
8.1.	Inspection of buildings and structures
8.2.	Survey of engineering networks and systems
9.	Performing the functions of the General Designer (as per fields of activity)

*Supplement № 3
Approved by the Decree
of the Cabinet of Ministers
of the Azerbaijan Republic
of February 27, 2009
№ 34*

List

List of civil and erection works as per buildings and structures with I and II level of responsibility according to the state standards

№	Name of works and services
1	2
1.	Earthworks
2.	Special earthworks:
2.1.	Lowering the water level

2.2.	Soil consolidation (artificial freezing of soils, silication, tarring, cementation)
2.3.	Fastening the anchors in the ground and construction of buildings by the method «wall in the ground»
2.4.	Installation of drop shafts and caissons
2.5.	Blasting and digging works and the removal of the rocky land
3.	Masonry work
4.	Laying of solid concrete and reinforced concrete structures, installation of precast concrete and reinforced concrete structures
5.	Preparation and installation of metal structures on the site
6.	Preparation and installation of wooden structures on the site
7.	Supporting (pile) works:
7.1.	Installation of piles, poles and rabbets
7.2.	Installation of drilled-in caisson, built-in-place piles
8.	Roofing works:
8.1.	Roofing of roll material
8.2.	Roofing of polymer and bitumen emulsion composition
8.3.	Roofing of piece of material
8.4.	Roofing of metal plates
9.	Installation of light frame construction:
9.1.	Metal structures
9.2.	Frame structures of the extruded panels and boards
10.	Decorative finishing work:
10.1.	Facade decorative and finishing works
10.2.	Facing works
11.	Work on installation of external engineering services and networks (water, sewer and heating lines)
12.	Work on installation of internal engineering systems and equipment:
12.1.	Installation of centralized heating and ventilation systems, air conditioning systems, pneumatic conveying and aspiration systems
12.2.	Installation of technological pipes, water and sewer lines, equipment, records and control devices
12.3.	Installation of electricity supply systems
12.4.	Installation of low-voltage lines and automatic fire extinguishing systems
13.	Protection of process equipment, pipelines and structures:
13.1.	Protection of wood constructions from decay and fire (installation of antiseptic and fire resistant coatings)
13.2.	Corrosion protection (installation of corrosion-resistant coatings)
13.3.	Electrochemical protection of pipelines, reinforced concrete and steel structures
13.4.	Acoustic protection from the operating noise and vibration
14.	Hydraulic engineering in the construction of sea and river hydraulic structures in open and closed waters:
14.1.	Underwater engineering works
14.2.	Dredge and water purification works

14.3.	Construction of facilities on piers and columns
14.4.	Dams construction (earth dam)
14.5.	Construction of ports
14.6.	Construction of piers
14.7.	Waterworks and their complexes
15.	Transport construction:
15.1.	Roads of I and II categories
15.2.	Highways of III, IV and V categories
15.3.	Electric passenger transportation roads (lines of trams, trolley-buses and aerial ropeways)
15.4.	Construction of urban highways and streets
15.5.	Transportation tunnels and underground
15.6.	Main railway lines
15.7.	Lines of the local division of the railroad
15.8.	Bridges, overpasses and underpasses:
15.8.1.	Reinforced concrete structures:
15.8.1.1.	With length up to 12 meters
15.8.1.2.	With length of 12 meters and more
15.8.2.	Metal construction:
15.8.2.1.	With length up to 18 meters
15.8.2.2.	With length of 18 meters and more
15.9.	Runways and taxiways of airfields
16.	Construction of industrial, civil and public facilities:
16.1.	With passages up to 24 meters
16.2.	With passages of 24 meters and more
16.3.	Outdoor sports facilities with seats:
16.3.1.	With capacity up to 5,000 persons
16.3.2.	With capacity of more than 5 thousand persons
16.4.	Buildings and structures in a unique design
17.	Construction and installation of special facilities:
17.1.	Structures and towers of communication, radio and television
17.2.	Reservoir and process tanks
17.3.	Tanks and gasholders (gas reservoirs)
17.4.	Industrial furnaces, chimneys, silos, water towers, cooling towers
17.5.	Cable-stayed structure
17.6.	Steel construction of buildings and structures
17.7.	pipelines:
17.7.1.	trunk
17.7.2.	local
17.8.	Power lines:
17.8.1.	up to 35 kV

17.8.2.	over 35 kV
18.	Installation of technological equipment:
18.1	Refueling stations
18.2.	Water and thermal power plants
18.3.	Modular power plants
18.4.	Installation of wastewater treatment plants
18.5.	Irrigation and drainage systems
19.	Serving as General Contractor (as per fields of activity)

Note. This List does not apply to repair works, carried out in private and other residential houses, apartments, summer cottages.
